## Switching to Motion Strong Offense

"Here is why:

- It was personnel based
- Needed a solution to face guarding
- Use our 5 man better"

"I needed to involved more screening naturally - to allow for our players to use their skills.

1. for the face guarding
2. to benefit our 4/5 men - who were not DDM players"

"It's not like it was a magic solution at all - but I thought it helped with some of my offensive concerns.

- Screening occurred naturally
- Flexible - So I could manipulate it
- Allowed my 5 man to be more involved"

## **Off-Season**

"Mostly I have two goals -

1. Try to go get them to play as much as possible.
2. Use Summer League to evaluate
  - See trouble spots, advantages we have, etc."

"My focus would be on building the skills that would make them successful in our systems.

- Reading & setting screens - Motion
- Finishing & shooting
- Typical 2-3 man spacing habits, etc."
